

ABOUT ON-SITE

Established in Minnesota in 1991, we carry a rich history of helping vulnerable adults in their homes. Our core business was hearing care until 1998. At that time, additional podiatry and optometry services were added on. However, we have always been most passionate about hearing care, as attested by our expansion to Arizona. The expanded region provides a platform to showcase a lifetime of lessons now applied to a new business model. We can't wait to show you what we have ready!

WHY CHOOSE US

We always work in the patient's best interest. We are not here to sell hearing aids. We are here to enrich the lives of our patients. We believe a hearing care subscription concept is the future of the hearing care industry and the best way to achieve our mutual goal: Hear your best.

ALWAYS.

BETTER HEARING BETTER LIFE

● OUR **Background** ●

Our pop up clinic model is one of a select few hearing healthcare providers across the country chosen to participate in this extraordinary Flex:trial program. We invite you to take advantage of this limited-time opportunity,

Wouldn't it be great if you could try a product before making a significant investment...to make sure it fits your needs and lifestyle before saying, "I'll take it?" And, if you didn't have any upfront payment, well, that would be better yet.

Most companies can't let you do this, of course. But at On-Site Care we can, thanks to a totally new and unique program from Unitron! If you have any concern about your hearing, or if you currently wear hearing aids and are looking for something better, you need to contact us today about our new Flex:trial program.
